International Agricultural
Trade Research Consortium

An Analytical Listing of Timothy E. Josling's Publications

By David Blandford and Stefan Tangermann *

Working Paper #20-01

The International Agricultural Trade Research Consortium is an informal association of University and Government economists interested in agricultural trade. Its purpose is to foster interaction, improve research capacity and to focus on relevant trade policy issues. It is supported by United States Department of Agriculture (ERS, FAS, and OCE), Agriculture and Agri-Food Canada, and the participating institutions. The IATRC Working Paper series provides members an opportunity to circulate their work at the advanced draft stage through limited distribution within the research and analysis community. The IATRC takes no political positions or responsibility for the accuracy of the data or validity of the conclusions presented by working paper authors. Further, policy recommendations and opinions expressed by the authors do not necessarily reflect those of the IATRC or its funding agencies. For a copy of this paper and a complete list of IATRC Working Papers, books, and other publications, see the IATRC Web Site <http://www.iatrc.org>

A copy of this paper can be viewed/printed from the IATRC Web Site indicated above.

*David Blandford <blandford.david@yahoo.com> is a Professor Emeritus at Penn State University.

Stefan Tangermann <stefan.t@ngermann.net> is Professor Emeritus at University of Göttingen.

1 Introduction

This IATRC Working Paper provides a list of the publications of the late Timothy E. Josling to serve as a source of reference for the work of this eminent agricultural economist. It also provides an analysis of Josling’s publications in terms of subject matter area, outlets and other characteristics. It is a supplement to the book on “Current Issues in Global Agricultural and Trade Policy” comprising essays written in honour of Josling by a number of his long-time friends and colleagues.¹ We are grateful to the IATRC, an institution which played an important role in Tim’s professional life and in which he also played an important role, for providing a platform for making this analysis of Tim’s writings publicly available.

After we had decided to edit a book as a tribute to Josling we naturally needed access to a complete list of his publications. It turned out that this was unavailable. Consequently, we began to work on the creation of such a list. How we did that is outlined in section 2 of this paper. Once we had compiled the list, our first aim was to allocate the publications to individual thematic areas (section 3). Given the fact that Tim worked closely for and with a number of institutions that are active in advising on and shaping agricultural and trade policies, it is of interest to identify those publications associated with these institutions (Section 4). We summarize the types of outlets for the publications (books, journal articles etc.) in section 5. Finally, to determine which of Tim’s publications have attracted most attention in the academic literature we examine some citation statistics (section 6).

¹ Blandford, D., and S. Tangermann (eds.) (2020), *Current Issues in Global Agricultural and Trade Policy: Essays in Honour of Timothy E. Josling*. London: World Scientific. Authors and titles of chapters in this book are provided in an annex to this paper.

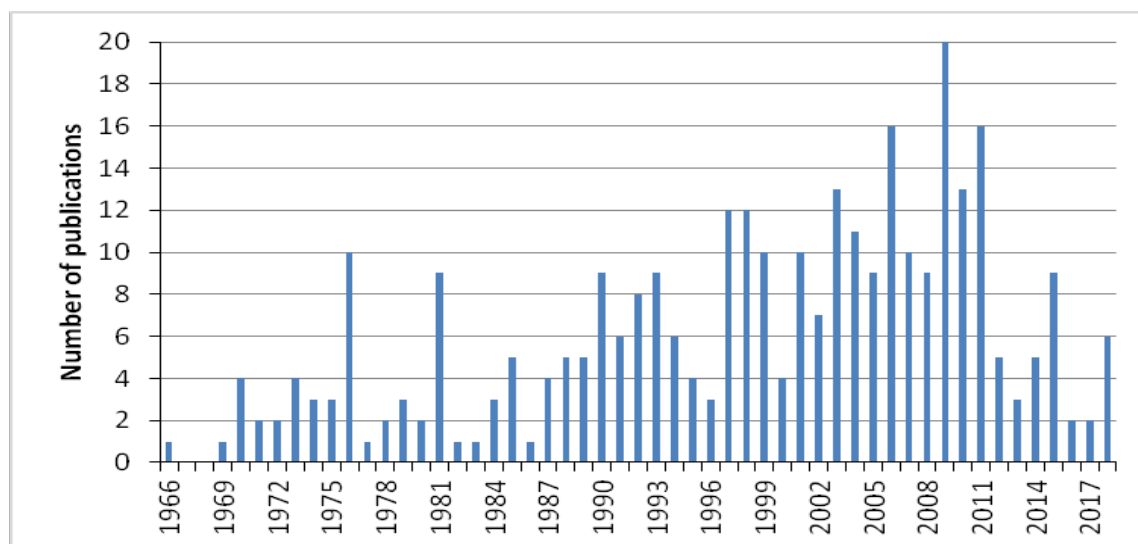

2 Sources

To obtain a comprehensive list of Tim’s publications we approached his widow, Anthea Josling. Anthea was kind enough to conduct a search, with the assistance of her two children John Mark and Catherine, on the computer Tim had used for his work. It turned out that the only traceable list, dated September 2015, covered only Tim’s publications from 1966 to 2015 and was incomplete. We thus consulted additional sources, including our own private libraries and lists of literature, WorldCat, AgEconSearch, catalogues of major libraries, Google Scholar and the like.² While working on the book we were also made aware of a few additional publications by colleagues. In compiling the list we chose not to include some unpublished papers on the grounds that many of these are not generally accessible. In addition, in many cases, such papers were precursors to subsequently published work.

The resulting list is presented in section 7 of this paper. It contains an impressive number of 321 publications. Although we sought to be comprehensive, it is possible that some of Tim’s accessible writings have escaped our attention.

The list presents the publications by year in chronological order, though in the absence of information on the exact date of individual publications within a given year the within-year order is alphabetical by author. The annual distribution of Tim’s 321 publications is shown in figure 1.

Figure 1: Josling’s publications by year

² We would like to acknowledge the valuable assistance provided by Katharine Hassapoyannes in the extended search for missing publications.

The list shown in section 7 also has columns with the results of categorization, as described in the subsequent sections of this paper.

3 Thematic Areas

Based on our impression of which thematic areas were particularly important in Tim’s research, we defined fifteen subject matter areas, shown in table 1, and allocated the 321 publications to these. The list of publications in section 7 contains the codes of the subject matter areas (see table 1) used in our allocation. The definition of relevant thematic areas and our allocation of publications to those areas is subjective, but we feel that they provide a useful way to categorize the focus of his research.

In allocating Tim’s writings to the thematic areas we found that some individual publications spanned more than one subject matter area. In such cases we allocated the respective publications to two areas, the first one being the subject we considered most relevant. In table 1 the number of publications listed under ‘single criterion’ is based on only the first (i.e. most relevant) subject matter area, while the column ‘dual criteria’ presents the sum of of publications allocated to both a first order and second order area (and therefore contains a total larger than the overall 321 publications we identified). Figure 2 is a graphical representation of the distribution of Tim’s publications over the individual thematic areas, based on the first order single criterion.

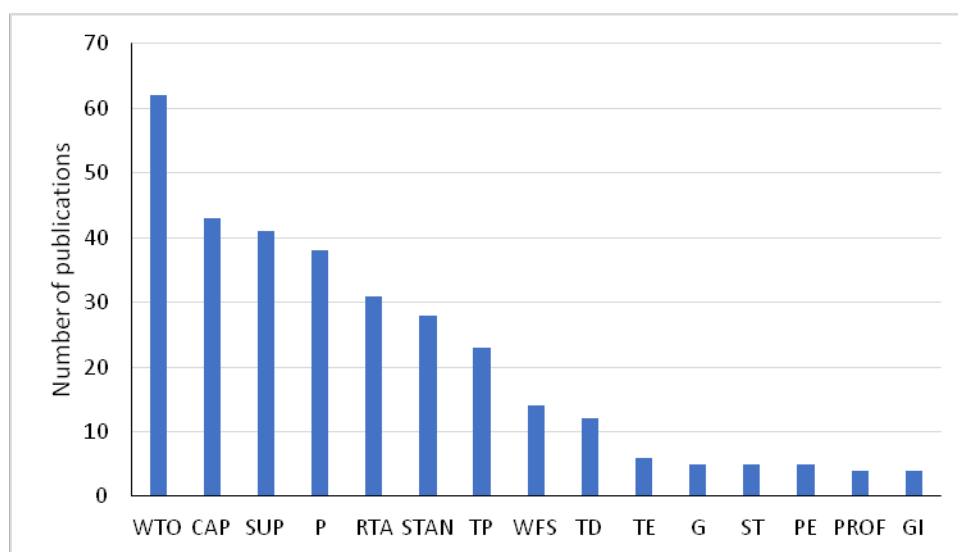

Table 1: Number of publications by subject matter area

Subject	Code	Number of publications	
		Single criterion	Dual criteria
Multilateral rules/GATT-WTO negotiations/trade disputes and dispute settlement	WTO	62	122
EEC/EC/EU policy analysis (CAP and related issues, e.g. UK in the CAP, monetary)	CAP	43	50
Measurement and analysis of domestic support	SUP	41	46
General agricultural policy analysis (excluding CAP)	P	38	48
Regional trade agreements and their impact	RTA	31	35
Standards and international trade, sanitary and phytosanitary, GMOs	STAN	28	30
Analysis of trade and trade policy	TP	23	39
Global markets and world food security	WFS	14	18
Trade and developing countries	TD	12	20
Trade and the environment	TE	6	7
General economic analysis	G	5	5
State trading	ST	5	5

Political economy of agricultural policies	PE	5	10
Contributions to the profession and to professional development	PROF	4	4
Geographical indications	GI	4	4
Total		321	443

Note: subjects are ranked according to the number of publications under the single criterion.

Figure 2: Number of publications by subject matter area, single criterion

The results of this analysis demonstrate the large amount of analysis that Josling conducted on a range of agricultural and trade policy issues and is reflective of the major contributions that he made in many key areas.

For readers interested in Josling’s publications on a given subject matter we include a table specifying the publication numbers relating to the individual subject matter areas (table 2)

Table 2: Publication numbers relating to individual subject matter areas

4 Institutional Relations

We identified ten institutions with which Tim cooperated and which are involved in the analysis of and the provision of advice on policies in the area of agriculture and trade. Where a publication appeared to be associated with one or two of these policy organizations we marked this in the respective columns of the list of publications presented in section 7 of this

paper. Table 3 shows the codes used and the numerical result of that categorization, based on dual criteria in which individual publications were related to two organizations.

Table 3: Number of publications associated with policy organizations

Policy organization	Code	Number of publications
International Agricultural Trade Research Consortium	IATRC	26
International Food & Agricultural Trade Policy Council,	IPC	16
World Bank Group	WB	15
UN Food and Agriculture Organization	FAO	12
Trade Policy Research Centre	TPRC	11
International Center for Trade and Sustainable Development	ICTSD	10
USDA Economic Research Service	ERS	6
Organization for Economic Cooperation and Development	OECD	4
International Food Policy Research Institute	IFPRI	3
World Trade Organization	WTO	1

Note: policy organizations are ranked according to the number of publications associated with them.

The 26 publications Tim has published in association with the IATRC are the following publication numbers: 60, 61, 64, 71, 74, 75, 76, 82, 83, 93, 94, 97, 102, 107, 116, 118, 119, 128, 129, 148,157, 162, 170, 198, 258, 272.

5 Types of Publication

To characterize the types of publication we used six categories as shown, along with the codes used in the list presented in section 7 and the number of publications corresponding to them in table 4.

Table 4: Number of publications by type

Type of publication	Code	Number of publications
Analytical reports, discussion papers	P	71
Books	B	18
(Small) Monographs	M	10
Book chapters	A	105
Journal articles	J	56
Popular publications, briefing papers, educational material	POP	61
Total		321

6 Citations

From the various sources of citation statistics available online we chose to use GoogleScholar. As Tim's name appears in different formats in references to his publications we searched GoogleScholar for all of these (i.e. Timothy E. Josling, T.E. Josling, Tim E. Josling, Tim Josling, T. Josling) and combined the results into one list. We listed all of Tim's publications for which GoogleScholar showed 20 or more citations on 25 August 2020.

The publications with 101 or more citations are shown in table 5 with full references, while table 6 lists the publications with 20 to 100 citations with publication numbers as provided in the table in section 7.

Annex

Titles and authors of the chapters in

Blandford, D., and S. Tangermann (eds.) (2020), *Current Issues in Global Agricultural and Trade Policy: Essays in Honour of Timothy E. Josling*. London: World Scientific.

Chapter 1 Josling: An Intellectual Innovator

David Blandford and Stefan Tangermann

Chapter 2 Measurement and Analysis of Agricultural Policy Support

Kym Anderson

Chapter 3 Europe's Common Agricultural Policy

Alan Swinbank

Chapter 4 A Half Century of US Agricultural Policy and Trade

Daniel A. Sumner

Chapter 5 The Challenge of Achieving Food Security*

Richard Barichello

Chapter 6 Multilateral Rules for Food and Agricultural Trade

David Orden

Chapter 7 Sanitary and Phyto-sanitary Measures

John C. Beghin

Chapter 8 Product Differentiation, Geographical Indications and Trade

William A. Kerr

Chapter 9 Endnote

David Blandford and Stefan Tangermann
